Ancient Roads and Unidentified Corridors – Deb Mithoefer distributed data recapping legislation of Ancient Road updates; Act #178 of 2006 and Act #158 of 2008 made changes to VSA Title 19. Act #158 clarifies any confusion within Act. 178 and names a sixth classification of highway to be known as an unidentified corridor. It was discussed that the commission identify roads with physical evidence by 7/2010, mapping those considered to be of importance for preservation purposes. Unidentified corridors will cease to exist by 2015.

Copies of Windsor Land Record Books from 1786 through 1834 (and dates forward) have been ascertained and further observatory work in the field will continue.

Scanned PDF Kittredge records have been converted into Word Doc. format and are ready for reformatting to Excel.

Town Plan – commissioners were asked to review the plan and bring proposed changes to the next WWCC meeting.

Next meeting May 4, 2009

Meeting adjourned 9:00 PM

Respectfully submitted,

Ellen Tully
WWCC Secretary
