

## **WEST WINDSOR SELECTBOARD**

Draft Minutes

April 21, 2010

Present: Bruce Boedtke, Tom Kenyon, Glenn Seward, Mike Adams (Army Corps of Engineers)

- 1) Call to Order – Selectboard Chair Glenn Seward called the meeting to order at 10:00 AM.
- 2) Site visit to Beaver Brook – The Selectboard and Mike Adams went to look at the erosion on the west bank of Beaver Brook, behind the church.
- 3) Discuss erosion mitigation options - Tom Kenyon presented a brief history of the erosion problems behind the church and suggested possible mitigation options for Mike Adams to consider. After discussion with the board about the possible options it was decided to submit an informal drawing to the Corps indicating the removal of trees, placement of existing large stones to slow stream flow in the area of concern, and the proposed armoring of the eroded stream bank directly behind the church. The same stream flow is also seriously eroding the stream bank belonging to the Town of West Windsor/Albert Bridge School. The board also decided to contact Patrick Ross from the State to discuss permitting requirements to not only satisfy the state but local zoning requirements as well.
- 4) Adjourn – The meeting was adjourned by consensus at 10:47 AM.

Respectfully submitted,

Glenn Seward  
Selectboard Chair
